

ATLANTA BELTING COMPANY

Products for the Food Industry

When you need industrial supplies for your food processing facility, please consider Atlanta Belting Company, Inc.

ABCO has been a leading supplier of belting to Southeastern industries since 1923! Let us help you choose belts that fit your applications and provide the maximum possible belt life.

In addition to belting we can supply the following items: Hydraulic hose assemblies, deboning channel, vinyl door stripping, plastic modular conveyor belting, pulleys and idlers, water hose assemblies, v-belts, timing belts, general purpose red hose, extruded urethane belting & profiles, and belt vulcanizing. We also stock sheets, rods and bars of UHMW plastic and can custom machine your plastic parts in house.

Atlanta Belting Company caters to the fast-paced food industry with food grade belting, vulcanized endless on site or with belt fasteners installed. We also provide plastic modular belting and sprockets and stock UHMW in sheets, bars, and rods, which can be cut and machined to replace your OEM parts. We keep several styles of deboning channel in stock ready to ship. Please call us today for your belting and plastic needs!
